

ICPO Foundation Newsletter

July 2024 Edition

Dear ICPO Friends and Partners,

With the new issue of our newsletter, we would like to inform you about all the ICPO Foundation's exciting projects in the second half of the year across all activities: ICPO Centers, ICPO Academy, ICPO Research and ICPO Events.

In the area of ICPO Centers, we were able to conclude partnerships with two more **ICPO Collaborating Centers in Dubai, UAE and Pretoria, South Africa**. Many more centers will soon follow around the world. Welcome to the ICPO Community.

Over **50 industry-funded stipends from the ICPO Academy for Theranostics** have also enabled professionals in Asia, South America, Africa, and the Middle East to access world-class education in radiomolecular precision oncology. Another significant step forward is about to be completed: we will continue expanding our language range in the following weeks and months. Stay tuned!

We are thrilled to announce the program of our **ICPO Theranostics Virtual Summit 2024**, which will take place on 14 & 15 November 2024. The website is now ready for registration. We believe this summit will be a game-changer in the field of Radiotheranostics with a day dedicated to alpha therapies and the other to new radiopharmaceuticals, FAP and beyond. Please have a look on the program: www.icpovirtualsummit.com

In June, we attended, besides many other conferences, the **SNMMI Annual Meeting in Toronto, Canada**, and had the opportunity to engage in intensive discussions with many stakeholders and partners. Take a look at our video. In fall 2024, we will participate in five conferences in the field of theranostics.

Last but not least, we would also like to take this opportunity to congratulate our Board of Trustees member **Professor Richard P. Baum on his 70th birthday** Prof. Baum is the pioneer of Radiotheranostics and has made a significant contribution to giving many patients access to Radiomolecular Precision Oncology. We would like to take this time to honor his incredible commitment!

With best wishes,

Your
ICPO Foundation team

ICPO CENTERS

Dubai, UAE, July 2024

American Hospital Dubai Designated as New ICPO Collaborating Center

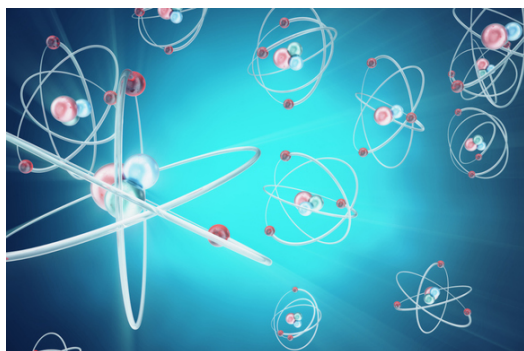

American Hospital Dubai has been appointed as a new ICPO Collaborating Center, a move that will enhance educational standards in radiotheranostics. This collaboration aims to broaden patient access to advanced cancer treatments in the United Arab Emirates, paving the way for more effective therapeutic options in the region. [More info](#)

Pretoria, South Africa, July 2024

Nuclear Medicine Research Infrastructure (NuMeRI) Recognized as ICPO Collaborating Center

This partnership will elevate educational standards in radiotheranostics and aims to expand patient access to advanced cancer treatments in South Africa. [More info](#)

NEW - ICPO Center Support, July 2024

List of 20 recent publications in Radiotheranostics

If you want to establish a new clinical Theranostics Center or you would like to look at extending your diagnostics practice to include therapy, we have prepared a list of recent publications to develop further understanding of this innovative field.

ICPO ACADEMY FOR THERANOSTICS

More stipends awarded to physicians, physicists, radiochemists and nurses

In the last months we awarded 50 industry funded stipends for the ICPO Academy for Theranostics.

With these stipends, young professionals from Asia, South America, Africa and Middle East have been enabled to access world-class education in Radiomolecular Precision Oncology. **More info**

ICPO Academy offers a multilingual education platform

We will continue to expand our range of languages in the next weeks and months

The ICPO Academy provides four pillars: Radiomolecular Precision Oncology, Medical Physics, Radiochemistry as well as Nursing and Patient Management. Further languages will be added to the existing range of English and Chinese.

More info

ICPO RESEARCH

Highlight on an ICPO Research Grant

Prof. Dr. Klaus Kopka & Dr. Sven Stadlbauer from Helmholtz-Zentrum Dresden, Germany

The ICPO Foundation is pleased to support this research project with a grant focused on the development of ¹⁸F-labeled radioligands for PET imaging of PD-L1 positive tumors.

Support Radiotheranostics for patients worldwide!

Invite to donate at your birthdays, events and special days!

Your contribution is crucial for advancing research in theranostics. Donations to the ICPO Foundation will directly support scientific research projects, the ICPO Academy, and various ICPO initiatives in Radiomolecular Precision Oncology. **Please donate here**

Virtual: November 14 & 15, 2024

**Register for our ICPO THERANOSTICS
VIRTUAL SUMMIT 2024**

Join our world-class scientific program with 30+ invited experts from academia and industry in the field of theranostics in precision oncology. The first day will be dedicated to alpha therapies and the second day to new radiopharmaceuticals, FAP and beyond. Our objective will be to sketch together the contours of a new era in cancer care, ultimately benefiting patients around the globe. **Please register here:**

If you like to sponsor the ICPO Summit, please contact us: info@icpo.foundation

**ICPO FORUM
FOR THERANOSTICS
in Precision Oncology**
May 15 & 16, 2025

Over 50 talks and panels with leading international experts

Germany, Munich, May 15 & 16, 2025

ICPO FORUM 2025 in the Science Center in Garching by Munich

Talks and panels with leading specialists and partners from academia, industry and non-profit organizations, topped with exclusive networking opportunities. **Please pre-register here:**

If you want to collaborate as a sponsor, please contact us per email: info@icpo.foundation

WHERE YOU MEET US

Canada, Toronto, June 8-11, 2024

SNMMI – Annual Meeting of the Society of Nuclear Medicine and Molecular Imaging

The ICPO Foundation team was thrilled to attend the prestigious SNMMI conference in Toronto, where we had the invaluable opportunity to meet with numerous partners and key stakeholders. **More info**

Azerbaijan, Baku, July 6, 2024

5th Azerbaijan Oncology & Nuclear Medicine Symposium

Richard P. Baum, President of the ICPO Academy for Theranostics, held a lecture on "Diagnosis and Treatment with FAPI". He had the opportunity to share new insights for example with Dr. Fuad Novruzov, President of Azerbaijan Society of Nuclear Medicine (ASNM) and Dr. Rudi Dierckx, President of European Association of Nuclear Medicine (EANM). Germany, Munich, July 2024

Exploring clinical and regulatory requirements for a state-of-the art TheraNostics Center in Romania

Odile Jaume (CEO), Dr. Marwa Hakkam (Patient Access & Centers Director) and Susanne Simon (Head of Communications) of the ICPO Foundation, recently facilitated a fruitful visit for Dr. Ovidiu Palea, founder of Nord Hospital Romania and Dr. Ioana Luca, senior medical oncologist, to Munich's Clinic Rechts der Isar under the guidance of Prof. Matthias Eiber, Director of the TheraNostics Clinic. [More info](#)

Belgium, Leuven, July 16, 2024

Odile Jaume participated in the Launch Event of the RLT Academy Policy Recommendations

Harmonizing European and national regulations is essential to ensure effective patient access to RLTs as well as integrating RLTs early on in plans like "Europe's Beating Cancer", as emphasized by Alena Mastantuono and Philippe Charry, Opinion's Rapporteurs of the European Economic and Social Committee (EESC). UPCOMING CONFERENCES

China, Zhengzhou, Sept 12-15, 2024

ICPO Foundation will attend the CSNM 2024 – Annual Meeting of the Chinese Society of Nuclear Medicine

This premier conference themed "Theranostics & Integration" will showcase the latest advancements in nuclear medicine and molecular imaging, providing a platform for practitioners to present their achievements, exchange ideas, foster cooperation, and promote the development and application of nuclear medicine. **More info**

Barcelona, Spain, Sept 13-17, 2024

ICPO Foundation will attend the Congress 2024 – European Society For Medical Oncology (ESMO) congress

ESMO 2024 will disseminate the latest cutting-edge data, provide high quality education and excellent networking opportunities for oncologists and other stakeholders from all around the world. **More info**

India, Chandigarh, Sept 27-29, 2024

ICPO Foundation will attend the ANMPICON 2024 – Annual Conference of the Association of Nuclear Medicine Physicians of India

This conference will bring together faculty from renowned Institutes from India and abroad, academicians, researchers, practitioners, and students in Nuclear Medicine. **More info**

Vienna, Austria, October 7-11, 2024

ICPO Foundation will attend IPET 2024 - The International Conference by IAEA on Hybrid Imaging

The IPET 2024 conference organized by IAEA will provide international clinicians and imaging specialists, including from low- and medium-income countries, to critically examine the pivotal role of multimodality imaging techniques and their streamlined and emerging clinical applications for cancer management. **More info**

Germany, Hamburg, Sept 19-23, 2024

ICPO Foundation will attend the EANM 2024 – 37th Annual Congress of the European Association of Nuclear Medicine

The EANM is one of the most valuable Nuclear Medicine Meeting worldwide. Each year, more than 6,000 participants have the possibility to network, socialize and discuss the newest trends and findings in the field of Nuclear Medicine.

ICPO NEWS

Congratulations to the 70th Birthday of Professor Richard P. Baum

The pioneer of Radiotheranostics has dedicated his life to advancing this therapy worldwide.

With devotion and commitment, he treats his patients for whom he is often the last hope.

Professor Baum shares his invaluable knowledge, which he has acquired over decades, with doctors and scientists at countless international conferences. What a life! **More info**

Join the Community and become an ICPO FRIEND

We are looking forward to welcome individuals, corporates and non-profit organizations in our ICPO Community with the goal to scale patient access to Radiotheranostics.

Get in touch with us

The mission of the ICPO Foundation

Cancer is one of the most significant health challenges of our time and the need for more effective treatments is pressing. Recognizing a paradigm shift in cancer care from one size fits all to a personalized approach, the ICPO Foundation's aim is to gain momentum for Radiotheranostics in cancer care worldwide and scale global patient access to this innovative therapy. Radiomolecular Precision Oncology is a highly targeted therapy with low side effects, improved efficacy and patient outcomes.
