

ICPO Foundation Newsletter

May 2024 Edition

Dear ICPO Friends and Partners,

In this newsletter, we would like to inform you about the latest developments and progresses within the ICPO Foundation. Recognizing a paradigm shift in cancer care from one size fits all to a personalized approach, the ICPO Foundation's aim is to gain momentum for Radiotheranostics in cancer care worldwide and scale global patient access to this innovative therapy.

The ICPO Foundation is establishing an international collaborative network of certified ICPO Centers by sharing knowledge, standards and education in Radiomolecular Precision Oncology. In December 2023, we have welcomed the MISR Radiology Center in Egypt as a new ICPO Collaborating Center in our network.

March 2024 marks a significant milestone for the ICPO Academy for Theranostics, a groundbreaking initiative developed by the ICPO Foundation. We are proud to announce the prestigious accreditation from the Union Européenne des Médecins Spécialistes (UEMS), an esteemed institution dedicated to enhancing medical education and professional standards across Europe. Furthermore, we are very grateful for the industry-funded stipends from Advanced Accelerator Applications (ADACAP), a Novartis company, and ITM Isotope Technologies Munich SE for the ICPO Academy of Theranostics. Recently, we awarded 10 stipends to the Department of Nuclear Medicine at Osaka University Hospital.

Our commitment to expanding our global reach is further demonstrated with our new partnership in South America. The ICPO Foundation and the Brazilian Society of Nuclear Medicine (SBMN) have entered into a strategic alliance, aiming to promote international education standards and provide enhanced training support in Brazil.

Furthermore, we would like to draw your attention to a revolutionary book with free access by Prof. Vikas Prasad in honor of Prof. Richard P. Baum, the pioneer of Radiomolecular Precision Oncology and Board of Trustees of the ICPO Foundation as well as president of the ICPO Academy for Theranostics.

Join our community and register for our ICPO SUMMIT 2024 and the ICPO FORUM 2025 and benefit from top-class contributions from world-renowned experts in the field of theranostics. If you like to meet us in person – visit us on our booth PN10 at the SNMMI in Toronto!

Last but not least, we welcome Susanne Simon and Karim Bouterfa as two new team members who will advance the goals of the ICPO Foundation with their dedication.

These achievements are an essential step in our journey to scale patients access worldwide to radiotheranostics. We thank everyone who supports us on this path and look forward to continuing successful collaborations.

With best wishes,

Your
ICPO Foundation team

ICPO CENTERS

Egypt, Dec 2023

MISR Radiology Center (MRC) in Cairo established as new ICPO Collaborating Center
ICPO Foundation and MRC form key partnership to boost global education standards and establish innovative theranostics reference centers in Egypt and North Africa. [More info](#)

ICPO ACADEMY FOR THERANOSTICS

ADACAP, Jan 2024

ADACAP, a Novartis company, funded 130 stipends for the ICPO Academy for Theranostics in the Asia Pacific region.

With these stipends, young professionals will be enabled to access world-class education and laying the ground for their future in theranostics.

More info

ITM Isotope Technologies, Jan 2024

ITM funded 100 stipends for the ICPO Academy for Theranostics in China, India, Africa, and Latin America.

The audience of the ICPO Academy for Theranostics are clinicians, researchers, physicists, and radiochemists as well as nurses and technologists, who seek to integrate Radiomolecular Precision Oncology in patient care. **More info**

Sao Paulo, Brazil, Feb 2024

ICPO Foundation and SBMN Enter Strategic Partnership to Promote International Education Standards and Training Support in Brazil

This collaboration is aimed at deploying the ICPO Academy for Theranostics and later establishing ICPO Centers in Brazil and contribute to the global advancements in the field. **More info**

UEMS Accreditation, March 2024

ICPO ACADEMY FOR THERANOSTICS to Grant EACCME Credits after Accreditation by Union Européenne des Médecins Spécialistes (UEMS)

As the foremost European organization representing national associations of medical specialists, the UEMS plays a crucial role in advancing the delivery of high-quality healthcare, promoting continuous professional development, and safeguarding patient safety. **More info**

Dept. NM, Osaka University Hospital, Japan, May 2024

ICPO Foundation awards stipends of the ICPO
Academy for Theranostics

ICPO offers industry-funded stipends to the team
of Prof. Dr. Tadashi Watabe, Dep. Nuclear
Medicine at Osaka University Hospital . [More

ICPO RESEARCH

New ICPO Grant

PAUL SCHERRER INSTITUT, Zurich,
Switzerland

Investigation of ¹⁶¹Tb-based PSMA radioligand
therapy: efficacy and safety evaluation in
clinically relevant mouse.

ICPO EVENTS

Join our ICPO VIRTUAL THERANOSTICS SUMMIT 2024

World-class scientific program with invited
experts from academia and industry in the field of
theranostics in precision oncology. [Please
register here](#)

ICPO FORUM FOR THERANOSTICS in Precision Oncology

May 14 & 15, 2025

Over 50 talks and panels
with leading experts

Register for the ICPO FORUM 2025 in Garching by Munich

Talks and panels with leading specialists and partners from academia, industry and non-profit organizations, topped with exclusive networking opportunities. **Please register here**

WHERE YOU MEET US

Santiago de Chile, March 21-24

ICPO Foundation participated in the 7th Theranostics World Congress

On the congress the ICPO Foundation presented the ICPO Academy for Theranostics and hosted two sessions about TME Diagnostics and TME Therapeutics as well as a joint patient and experts' session together with the Oncidium Foundation. **More info**

Belgium, Ghent, April 26, 2024

9th ISMERAD – Alphy Therapy: New approach in radionuclide therapy

The ICPO Foundation presented the ICPO Academy for Theranostics at the 9th Symposium on Medical Radioisotopes in Ghent, Belgium. **More info**

Canada, Toronto, June 8-11, 2024

Annual Meeting of the Society of Nuclear Medicine and Molecular Imaging

The SNMMI Annual Meeting provides physicians, technologists, pharmacists, laboratory professionals, and scientists with an in-depth view of the latest research and development in the field as well as providing insights into practical applications for the clinic. Meet us at booth NP 10. **More info**

ICPO NEWS

Beyond Becquerel and Biology to Precision Radiomolecular Oncology: Festschrift in Honor of Richard P. Baum

Prof. Richard P. Baum, MD
Curanosticum, Wiesbaden, Germany,
President of the ICPO Academy for
Theranostics

Editor: Prof. Vikas Prasad, MD, PhD, Mallinckrodt
Institut for Radiology, St. Luis, USA

Festschrift in Honor of Prof. Richard P. Baum from Prof. Prasad Vikas, Jan 2024

Beyond Becquerel and Biology to Precision Radiomolecular Oncology:

Have a look on this revolutionary book with free access by world-renowned experts Prof. Vikas Prasad about Prof. Richard P. Baum, the pioneer of Radiomolecular Precision Oncology.

The mission of the ICPO Foundation

Cancer is one of the most significant health challenges of our time and the need for more effective treatments is pressing. Recognizing a paradigm shift in cancer care from one size fits all to a personalized approach, the ICPO Foundation's aim is to gain momentum for Radiotheranostics in cancer care worldwide and scale global patient access to this innovative therapy. Radiomolecular Precision Oncology is a highly targeted therapy with low side effects, improved efficacy and patient outcomes.
