

ICPO Foundation Newsletter

November 2024 Edition

Dear ICPO Friends and Partners,

We warmly invite you to join the ICPO Community for the upcoming **ICPO Theranostics Virtual Summit November 14 & 15, 2024**. Unless already done, **please register at** www.icpovirtualsummit.com. Our chairs, Prof. Frederik L. Giesel and Prof. Richard P. Baum will moderate exciting talks and panels in presence of 30 leading experts such as Steve Larson, Andrew Scott, Cathy Cutler, Mike Sathekge, Michael Hofman, Ken Herrmann, Josh Mailman, to name only a few! So don't miss out!

We're thrilled to announce that the ICPO Foundation is now cooperating with **Munich Precision Oncology GmbH** (MPO) which objective is to develop and establish dedicated theranostics centres globally using cutting-edge technology to provide the highest standard in patient care. **The pilot center** to be located in the **greater Munich area** will be developed in close cooperation with leading clinical, academic and industrial partners and will serve as a **functional demonstrator for ICPO**.

We're also honored to have signed, during IPET 2024 in Vienna, a strategic partnership with the **International Atomic Energy Agency** (IAEA) on supporting high-quality nuclear medicine facilities worldwide and making a powerful impact on patient outcomes. This partnership will in particular allow low- and medium-income countries, members of IAEA, to benefit from ICPO educational and innovation resources and from the growth of the ICPO Centers network and global Community.

Our **ICPO Collaborating Centers** network is growing, with new sites in the Philippines and India and many more to come in 2024. Each center brings critical resources closer to our mission to scale global patient access to Radiomolecular Precision Oncology.

ICPO has launched a **Patient Interview Series** and is **grateful for patients willing to take part!** Be sure to watch the first interview with **NET patient and international patient advocate, Josh Mailman** together with his wife Juliette and their son Eli: Patients Interviews.

ICPO Academy's global recognition is rising with three new endorsements from the Turkish Society of Nuclear Medicine (TSNM), the Asociación Latino americana de Sociedades de Biología y Medicina Nuclear (ALASBIMN), and the Consejo Mexicano de Medicina Nuclear e Imagen Molecular (CMMN). These endorsements underscore our commitment to excellence in precision oncology education!

Finally, **watch our new ICPO video** to grasp an inspiring overview of our mission and to meet our Trustees, Scientific Advisory Board, Management and Team who are personally at the essence of the Foundation www.icpo.foundation.

Thank you for supporting our mission in shaping a new era of cancer care!
With best wishes,

Your
ICPO Foundation team

ICPO NEWS

ICPO Foundation cooperates with Munich Precision Oncology GmbH (MPO)

MPO's objective is to develop and establish dedicated theranostics centres globally using cutting-edge technology to provide the highest standard in patient care.

The pilot center to be located in the greater Munich area will be developed in close cooperation with leading clinical, academic and industrial partners and will serve as a functional demonstrator for ICPO.

ICPO will provide training and certification services through the ICPO Academy, as well as patient workflow guidelines and clinical protocols for innovative and most effective patient outcomes.

More info: www.mp-onco.com

ICPO Foundation partners with IAEA

ICPO announced a strategic collaboration with the International Atomic Energy Agency for therapeutic clinical applications of nuclear medicine in oncology.

This partnership will focus on providing expert advisory services, assessing national needs, developing health workforce capacities, and supporting high-quality nuclear medicine facilities worldwide.

PATIENT ADVOCACY

ICPO has launched a Patient Interview Series!

Don't miss the first interview with NET patient Josh Mailman together with his wife Juliette and their son Eli!

In this interview, Josh and his family gave us insights into his cancer diagnosis, his treatment with radiotheranostics by Prof. Richard Baum, and his new life as an internationally recognized patient advocate.

ICPO CENTERS

Quezon and Taguig City, Philippines, September 2024

ICPO Foundation partners with St. Luke's Medical Center in the Philippines to establish an ICPO Collaborating Center

The ICPO Centers operate under an operating model based on shared know-how, certified education, and standardized design and processes that enable the implementation of best clinical practices on a global scale.

More info

Chennai, India, September 2024

ICPO Foundation partners with Apollo Hospitals in India to establish an ICPO Collaborating Center

This partnership seeks to provide a growing number of patients worldwide access to Radiomolecular Precision Oncology (RPO) and to further promote research and development in the field of RPO.

More info

ICPO ACADEMY FOR THERANOSTICS

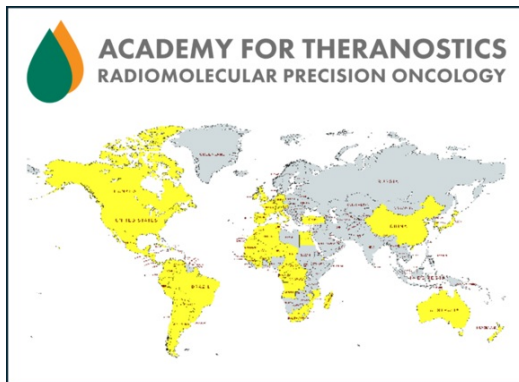

New Endorsements for the ICPO Academy

The ICPO Academy partners with three additional associations round the world

ICPO is honored to receive endorsements for its educational program from the Turkish Society of Nuclear Medicine (TSNM), the Asociación Latinoamericana de Sociedades de Biología y Medicina Nuclear (ALASBIMN) and the Consejo Mexicano de Medicina Nuclear e Imagen Molecular (CMMN).

More info

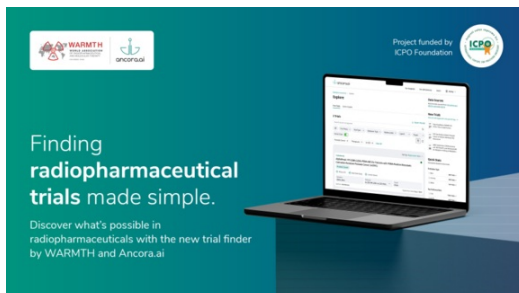

ICPO Academy offers a multilingual education platform NOW WITH 10 LANGUAGES

Join the Academy for Theranostics in your native language!

We added Japanese, Korean, Italian, French, Spanish, Portuguese, German and Turkish to the initial languages, English and Chinese. This across four pillars: Radiomolecular Precision Oncology, Medical Physics, Radiochemistry as well as Nursing and Patient Management.

WHERE YOU MEET US

Barcelona, Spain, September 13-17, 2024

ICPO participated in the congress of the European Society for Medical Oncology (ESMO)

Dr. Marwa Hakkam, ICPO Patient Access and Centers Director, met with many partners including key stakeholders. The central mission of the ESMO is to improve the quality of cancer treatment, cancer prevention and cancer diagnosis as well as palliative care and aftercare for cancer patients.

[More info](#)

Zhengzhou, China, September 12-15, 2024

ICPO participated in the first international session at the Chinese Society of Nuclear Medicine (CSNM) in Zhengzhou, China

Prof. Richard P. Baum, President of the ICPO Academy for Theranostics and Trustee of ICPO Foundation, held a talk with the title: "From History to Innovation – The Evolution and Future of Theranostics and Radiomolecular Precision Oncology". Karim Bouterfa, ICPO International Project Expansion Manager exchanged with many leading parties from the Chinese nuclear medicine community, with the kind support of the Chinese Isotope & Radiation Corporation (CIRC).

Vienna, Austria, October 7-11, 2024

Grand opening of the International Conference on Hybrid Imaging – IPET 2024 at the International Atomic Energy Agency (IAEA) headquarters in Vienna with high-profile international speakers

The conference was attended by over 575 in-person attendees from 103 countries and more than 3000 virtual registrants from around the world. Odile Jaume, CEO of the ICPO Foundation, had the pleasure to present the ICPO Academy for Theranostics and the ICPO Foundation to the broad international audience.

More info

Hamburg, Germany, October 19-22, 2024

ICPO participated in the EANM – Annual Congress of the European Association of Nuclear Medicine

The ICPO Foundation team participated in the 37th EANM with over 8.000 participants. Together with our partner Munich Precision Oncology GmbH (MPO) and grant recipient Warmth/ancora.ai we met with our ICPO Collaborating Centers, as well as with partners of the ICPO Academy for Theranostics, industry leaders in the field of Nuclear Medicine and speakers of our ICPO Theranostics Virtual Summit 2024. Looking forward to next EANM in Barcelona!

DONATION & MEMBERSHIP

BECOME AN ICPO FRIEND

Join the Community and become an ICPO FRIEND

ICPO Memberships

We are looking forward to welcome individuals, corporates and non-profit organizations in our ICPO Community with the goal to scale patient access to Radiotheranostics.

Get in touch with us

Support Radiotheranostics for patients worldwide!

**Invite to donate at your birthdays, events and
special days!**

Your contribution is crucial for advancing research in theranostics. Donations to the ICPO Foundation will directly support scientific research projects, the ICPO Academy, and various ICPO initiatives in Radiomolecular Precision Oncology.

Please donate here

DONATE FOR A NEW ERA OF CANCER CARE

The mission of the ICPO Foundation

Cancer is one of the most significant health challenges of our time and the need for more effective treatments is pressing. Recognizing a paradigm shift in cancer care from one size fits all to a personalized approach, the ICPO Foundation's aim is to gain momentum for Radiotheranostics in cancer care worldwide and scale global patient access to this innovative therapy. Radiomolecular Precision Oncology is a highly targeted therapy with low side effects, improved efficacy and patient outcomes.
